1.1 Divisibility by 10, 5, and 2

GOAL

Create and use divisibility rules to determine if 10, 5, or 2 is a factor of a whole number.

1. For each number, answer these questions:
   - Is it an even number?
   - Does it end in 5 or 0?
   - Does it end in 0?

At-Home Help

In a multiplication operation, you multiply factors to get a product.

$5 \times 2 = 10$
